MT 89 / ALUMINUM BASE-SHOE SYSTEM

# Glass Railing

An aluminum base-shoe glass railing for balconies and terraces, combining open views with precise, clean detailing.

### SYSTEM HIGHLIGHTS

- Dry-glazed compression fit; no glazing cement
- Adjustable glass panels for accurate alignment
- Removable panels for replacement

## SYSTEM OPTIONS

| | |
|---|---|
| Glass infill | Bird-friendly option |
| Top rail | Various cap profiles |
| Finish | Anodized or RAL powder coat |

## STRUCTURE & INSTALLATION

### CODE REQUIREMENTS

Project-specific design to applicable IBC and local structural requirements.

### INTERIOR-SIDE INSTALLATION

Interior-side installation without aerial equipment or scaffolding, where site conditions permit.

Final glass, anchorage and substrate design require project-specific engineering. Confirm installation access and the selected options before ordering.
